DETAILED ACTION

Allowable Subject Matter

Claims 1-11, 13-30 and 32-35 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Independent claims 1, 19 and 22 recite a remote programming device wherein the structure of the internal components claims two separate circuit boards mounted parallel to each other with a fixed separation distance between them. One circuit board contains circuitry for a telemetry antenna; the other circuit board has circuitry for a display. The claimed structure and method solves the problem of poor RF communication associated with noise injection, noise coupling, and unwanted antenna loading resulting from when the above components, i.e., the antenna and display, are located in close proximity to each other. The prior art fails to teach or suggest the embodiment of the invention as claimed, and therefore independent claims 1, 19, and 22 and all their depending claims are allowable.

Further, the affidavit filed 2 November 2006 under 37 C.F.R. 1.132 has been considered and accepted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
